NIGHT WORK NOTICE

Dear Resident/Business Owner,

The Massachusetts Department of Transportation, along with their contractor J.J. Phelan & Sons, Inc., and the Department of Public Works are coordinating road preparations in conjunction with the Arlington Center Safe Travel Project.

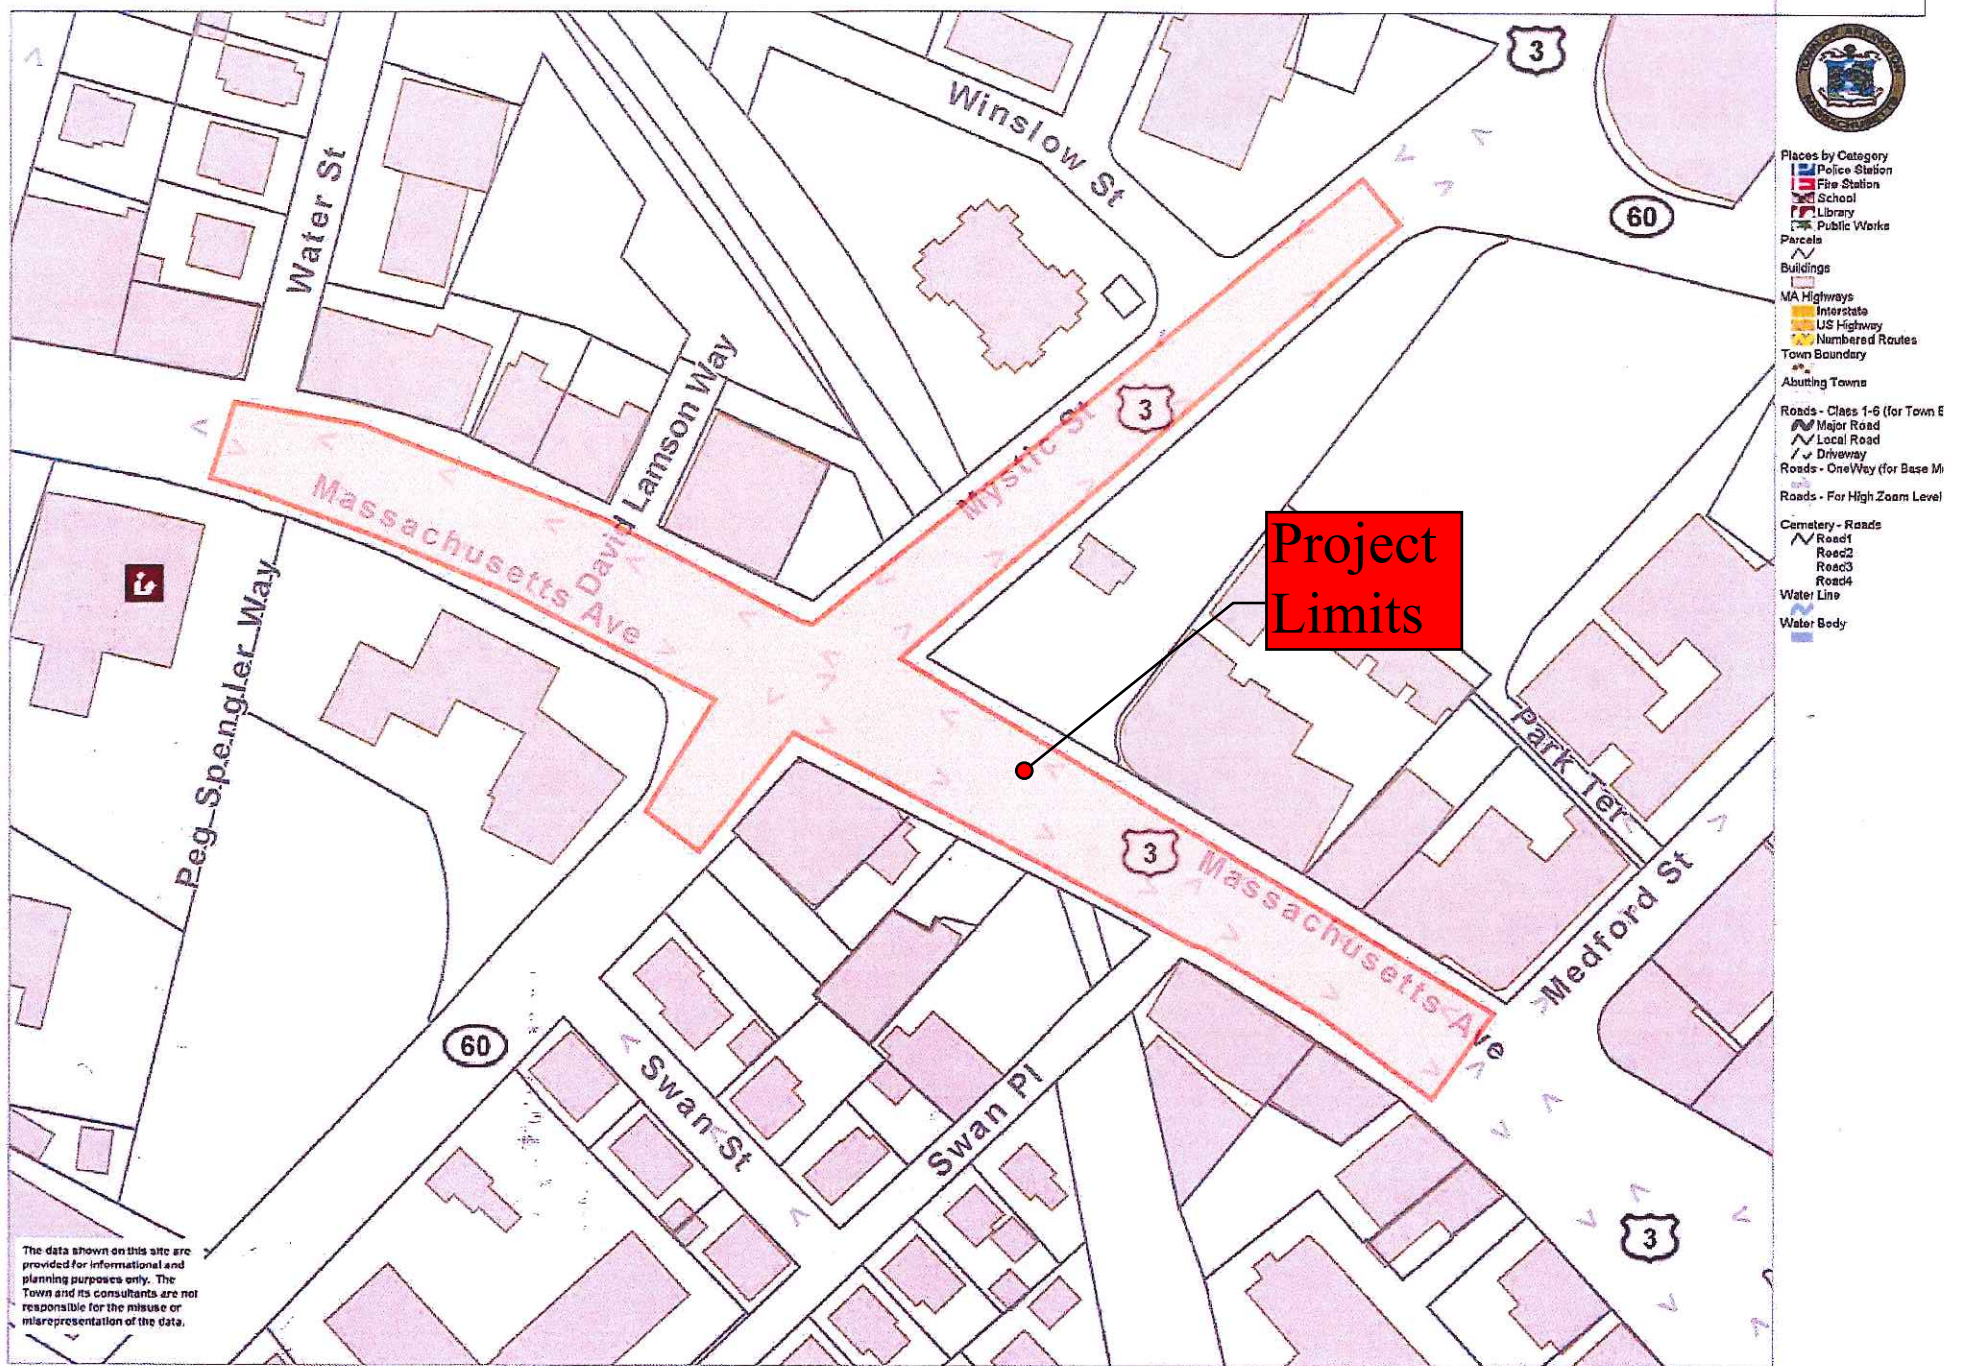

To perform this work, improve safety, and minimize traffic disruptions it has been determined that this work will be performed during night hours. This decision was made after discussions with the MassDOT, Public Safety Officials and the Department of Public Works. Given the potential disruptions and public safety issues involved, it was decided to perform this work at night to expedite the project to accomplish the work as rapidly as possible and provide a safer working environment.

Road Milling will begin October 13, 2016 and will take place from 8PM to 5AM. The road will remain open, but travel will be re-directed by police officers to alternate lanes as necessary to coordinate with the progress of the paving operations. The Arlington Police Department will be on-site to provide a traffic management support and ensure worker safety.

Paving operations will begin on October 16, 2016 and take place from 6PM to 5AM. Paving will occur in two phases, base coarse paving to occur October 16-17 and final paving October 23-24. In each phase Massachusetts Avenue will remain open, but vehicles will be required to follow detour routes for access and egress to side streets.

If you have any questions, please contact the Arlington Engineering Division for more specific information at 781-316-3320.

Thank you for your cooperation

Arlington Center Safe Travel Project
